

FIND YOUR RING SIZE

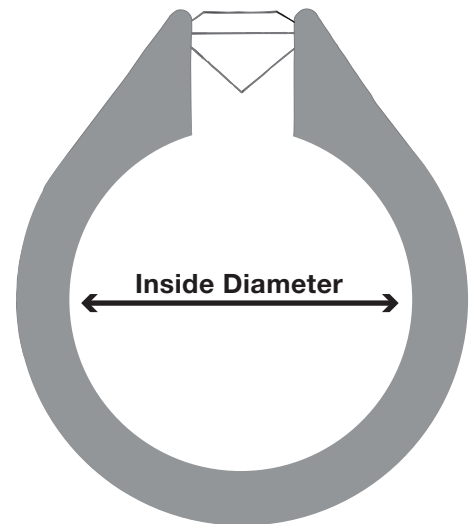

PRINTING THIS PAGE

- **Ring measurements are *very* precise.** To find an accurate measurement please follow these instructions carefully.
- **Before printing,** ensure that Page Scaling/Options are set to **None** (*boxes are not ticked*) on your print dialog box. Press CTRL+P to open the print dialog box.
- **Once printed, Please measure the bar on the left.** It must be exactly 30mm long. Now you know that the sizes below are viewed correctly.

MEASURING A CURRENT RING

- Select a ring that properly fits the intended finger. Ensure this ring is round and not dented in its form.
- Place the ring over the circles below. The **inside** edges of the ring should match the circle closest in size. This measurement is the inside diameter of the ring.
- If the ring fits in between two circles, order the bigger size.

Measurements Match the Inside Edge of the Ring

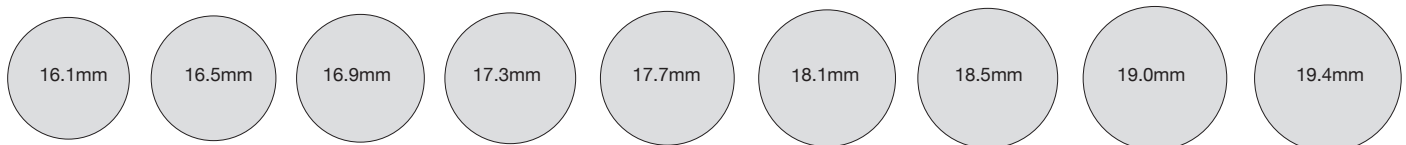

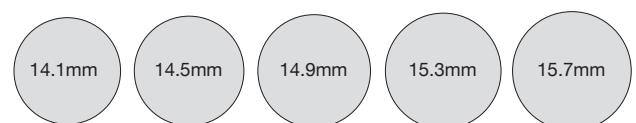

TIPS FOR FINDING YOUR RING SIZE

- Your ring should fit comfortably on your finger. It should be able to just slide over your knuckle to fit snugly on your finger. Be careful that it is not too loose, that it will fall off your finger or too snug, that it will feel claustrophobic.

DO YOUR FINGERS CHANGE SIZES IN A DAY?

- Most people's fingers do change sizes throughout a day, depending on the time of day and/or the weather. For best results measure your finger size at the end of the day, when your fingers are warmer and limber. Fingers tend to be smaller in the morning and when it's cold.

For best results try measuring your finger 3 or 4 times to eliminate error.

INTERNATIONAL RING SIZE CHART

Circumference (mm)	Diameter (mm)	Europe	UK & Australia	United States & Canada	China	Singapore & Japan	Hong Kong	Switzerland
44.2	14.1	44	F½	3	6	4	6	4
